

## The Green Story:

BRAVO is Built Green

BRAVO will take its' esteemed place as a leader in environmentally conscious design. The building methods and materials used for BRAVO are carefully considered to ensure it minimizes it's environmental impact.

For BRAVO, sustainability guides the design and building practices. It serves as a foundation for the design team and as a guide for construction and contracts. Our commitment to sustainability ensures that the most important environmental issues are considered during the design and construction of BRAVO.

Our green building practices put BRAVO centre stage...right where it belongs.
